When regular faculty reach Class 4 and 5 - Step 14, they become eligible, subject to the recommendation of the Superintendent/President, to receive the appropriate anniversary increment for professional growth, as shown in this salary schedule.

No more than five (5) years of full-time teaching experience and/or related work experience credit shall be allowed for initial placement on the salary schedule. When related work experience is required to meet the minimum qualifications for a discipline identified as one where a Master's Degree is not normally expected or available by statute, credit for full-time related work experience must be beyond that requirement. One (1) additional step for experience credit will be granted upon completion of a Bachelor's Degree (from an accredited institution) for those instructors initially employed with an Associate's Degree.

The Doctorate shall be earned at an institution accredited by one of the regional associations (The Western Association of Schools and Colleges).

The structure of the 1989-1990 faculty salary schedule will be maintained for those current vocational instructors who have been moving on the "vocational track" until such time as they can be transferred to this salary schedule, as a result of increased education, without decreasing their annual salary.

INITIAL SALARY PLACEMENT

Initial salary placement is established on the basis of the minimum qualifications for the discipline of initial assignment as a contract faculty member.

Initial CLASS placement is established using the candidate's highest academic degree specified in the minimum qualifications. Approved units beyond those used to satisfy the minimum qualifications may be used for advanced class placement; applicable coursework must be obtained from an accredited postsecondary institution.

Initial STEP placement is established on the basis of previous experience as an academic employee and related full-time occupational experience, exclusive of any years of experience used in meeting the minimum qualifications.

A maximum of nine (9) years of step credit may be granted for any combination of the following:

One year of step credit may be granted for each year of full-time contract academic employment with an accredited institution.

One year of step credit may be granted for each thirty (30) semester units of part-time academic employment with an accredited institution. A maximum of six (6) years of step credit may be granted for part-time academic employment. Substitute teaching, summer intersession teaching, and teaching compensated at part-time, extended-day or lecturer rates will be considered part-time academic experience. Service as a teaching assistant, teaching intern, instructional aide or similar employment may not be applied toward advanced step placement.

One year of step credit may be granted for each three (3) years of full-time occupational experience directly related to the discipline.

Placement for faculty is determined by years of job-related experience (steps on the schedule) and education (columns on the schedule). New academic employees may receive credit for no more than 5 years of job-related experience which is credited on the basis of 1 year of full-time equivalent experience for 1 step on the salary schedule. (Example: Crediting a faculty member with 5 years of job-related experience would place them on Step 6 of the Faculty Salary Schedule.) All Prior teaching and/or counseling experience at an accredited institution shall be credited on a pro rata basis. The number of units taught must be equivalent to a full-time load to receive a full year's credit for service.

Initial column placement will be determined by educational background as follows:

Column I: Minimum qualifications or the equivalent. (Equivalencies are established by the Equivalency Committee. Minimum qualifications include a valid California Community College teaching credential in the subject area.)

Column II: Master's Degree in assigned academic discipline.

Column III: Master's Degree plus 20 semester units* completed subsequent to the BA.

Column IV: Master's Degree plus 40 semester units*. Twenty (20) of these units must have been completed subsequent to completion of the MA.

Column V: Master's Degree plus 60 semester units*. Forty (40) of these units must have been completed subsequent to completion of the MA.

Column Movement/Anniversary Increment criteria are contained in **Procedure Manual**. Units used for column movement and anniversary increment credit must be pre-approved.
