Special Expertise Addendum

Course or Allied Service	**Brief Rationale**	**Criteria** The criteria will be relevant, objective, verifiable and reasonable.
CS 17.11 – Java Programming	It is imperative that an instructor teaching programming has sufficient experience as a programmer.	Must have either (1) a bachelor's degree in Computer Science, Computer Information Systems, or equivalent from an accredited college or university, OR (2) worked as a full-time computer programmer for at least 5 of the last 10 years, OR (3) taught a computer programming course at an accredited college within the last 5 years.
CS 40 – History of Games	It is imperative that an instructor teaching game design has sufficient current experience.	Instructor must have either: two years of work experience as a game designer or game programmer within the past three years requiring use of the course content; OR taught the course within the last three years; OR passed the course itself with a grade of 'A' within the last three years.
CS 41 – Game Design	It is imperative that an instructor teaching game design has sufficient current experience.	Instructor must have either: two years of work experience as a game designer within the past three years requiring use of the course content; OR taught the course within the last three years; OR passed the course itself with a grade of 'A' within the last three years.
CS 42 – Intro to Game Coding	It is imperative that an instructor teaching game design has sufficient current experience.	Instructor must have either: two years of work experience as a game programmer within the past three years requiring use of the course content; OR taught the course within the last three years; OR passed the course itself with a grade of 'A' within the last three years.
CS 50A – Web Development 1	As Web technologies change rapidly, current experience in Web Development is necessary.	Instructor must have either: two years of work experience in the past three years requiring use of the course content; OR taught the course within the last three years; OR passed the course itself with a grade of 'A' within the last three years.
CS 50B – Web Development 2	As Web technologies change rapidly, current experience in Web Development is necessary.	Instructor must have either: three years of work experience in the past five years requiring use of the course content; OR taught the course within the last three years; OR passed the course itself with a grade of 'A' within the last three years.
CS 50C – Web Development 3	As Web technologies change rapidly, current experience in Web Development is necessary.	Instructor must have either: three years of work experience in the past five years requiring use of the course content; OR taught the course within the last three years; OR passed the course itself with a grade of 'A' within the last three years.
CS 55.13 – PHP Programming	It is imperative that an instructor teaching programming has sufficient experience as a programmer.	Must have either (1) a bachelor's degree in Computer Science, Computer Information Systems, or equivalent from an accredited college or university, OR (2) worked as a full -time computer programmer for at least 5 of the last 10 years, OR (3) taught a computer programming course at an accredited college within the last 5 years.
CS 57.11 – Introduction to Social Media	As Social Media changes rapidly, current experience is necessary.	Must have either (1) 5 years of work experience requiring use of the course content within the last 10 years, OR (2) taught or passed the course within the last 5 years.
CS 60.11A - MS Word, Part 1	To teach MS Word, an instructor must have extensive knowledge of the program.	Must have either (1) 5 years of work experience requiring use of the course content within the last 10 years, OR (2) taught or passed the course within the last 5 years, OR (3) passed an industry-standard certification exam on the course content.
